

GeoGebra Activities for Statistical Analysis

(Under the Resources tab, search and explore for free activities or search key words like Distribution, experiments, sampling proportion, etc.)

- » <https://www.geogebra.org/m/hef3ebjb>
Area of circles through three random points
- » <https://www.geogebra.org/m/cs777pez>
Conic through five random points
- » <https://www.geogebra.org/m/cm95pdyu>
Parabola through 3 random points: Vertex in square?
- » <https://www.geogebra.org/m/ucu5pdth>
Gender Discrimination
- » <https://www.geogebra.org/m/zwceghd4>
One hundred trials of 100 coin flips: Number of heads
- » <https://www.geogebra.org/m/e3stgyg9>
Mean eccentricity of random conics
- » <https://www.geogebra.org/m/cs777pez>
Conic through five random points
- » <https://www.geogebra.org/m/u49ryfpy>
Random Points on a Circle
- » <https://www.geogebra.org/m/srwskfvp>
Sampling Distribution of a Proportion
- » <https://www.geogebra.org/m/ccryftau>
Simulation of a Binomial Random Variable
- » <https://www.geogebra.org/m/jvgvdchz>
Barber Calls
- » <https://www.geogebra.org/m/ZTWBwKh9>
One-Son Policy Simulation
