REEVALUTION ONLY - CHANGE OF PLACEMENT DETERMINATION:

For a manifestation determination review (MDR) based on proposed suspensions, attach the DARF Form.

The committee has discussed the most appropriate location for accommodations and services. The student will receive accommodations and service in the following environment:

- General education classroom in the school the student would normally attend.
- General education classroom in a school the student would normally not attend.
- General education classroom for a partial school day.
- General education outside of the school environment (homebound/hospital etc).
- General education outside of the school environment for a temporary out-of-school suspension determined through the MDR process and length of suspension as listed on the DARF form.

Explain the rationale for any placement that is not the general education classroom in the school the student would normally attend:

The Section 504 Eligibility Determination Committee has determined the following:

- The student is eligible for Section 504 protections and requires a Section 504 Plan.
- The student is eligible for Section 504 protections but does not require a Section 504 Plan because:
 - The student has a disability-based Individualized Education Program through the Individuals with Disabilities Education Act (IDEA).
 - The student does not have a disability but has been regarded as having a disability.
 - The student is in remission and there are currently no accommodations required.
- The student is not eligible for Section 504 protections (student could be referred to the Student Assistance Team as appropriate).
